ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: ANTENNA DEVICE

(57) Abstract: An antenna device for a portable radiocommunications apparatus, a so-called cell or mobile telephone, has a carrier (4) produced from electrically insulating and non-magnetic material. The carrier (4) is fixable on a circuit card (1) in the mobile telephone and supports a radiator (5). The radiator has a contactor device (15) for contact with a corresponding contactor device on the circuit card (1). The carrier (4) has an accommodation space (10) in which an anchorage portion (3) on the circuit card (1) is insertible and fixable. The radiator (5) is disposed on the distal end of the carrier (4) seen from the circuit card (1).
